Experience

Associate Program Developer, *The Brown Institute for Media Innovation*
Stanford, CA – August 2016 - Present
Work with grant recipients and prospectives at Stanford to develop and execute their Magic Grant projects. Magic Grants are given to those working at the intersection of journalism and technology, who seek to push the boundaries of reporting and digital tools for journalists.

Magic Grant Recipient, *The Brown Institute for Media Innovation*
Stanford, CA – August 2015 - July 2016
Recipient of a grant to develop *open.contractors,* a Web dashboard for journalists who want to analyze, visualize and interact with contractor data from the Department of Defense.

Data Fellow, *The Center for Investigative Reporting*
Emeryville, CA – June 2015 - September 2015
Create web applications for the CIR Data Team and illustrate stories for Reveal, CIR's weekly radio show. Projects include designing and coding the interface for *The Lost & The Found*, an application that allows users to try to find matches between missing persons reports and descriptions of unidentified bodies.

Editor - PBS NewsHour Extra, *The PBS NewsHour*
Arlington, VA – April 2013 - July 2014
Oversee daily operations and maintenance of PBS NewsHour's online educational resources website, PBS NewsHour Extra. Manage partnerships with other publications, schools and non-profit organizations. Write, edit and produce articles and videos. Design graphics for web use. Coordinate five to ten writers among the NewsHour's desk assistants. Oversee Extra's intern program.

Assistant Editor - Education, *The PBS NewsHour*
Arlington, VA – June 2012 - April 2013
Write, edit and produce articles and videos for the PBS NewsHour's online and educational resources divisions. Design infographics for the web and graphics for broadcast. Mentor high school students in the Student Reporting Labs program to produce original video reports about issues in their communities.
